22 July 1961

MEMORANDUM FOR:

Brig. General Chester V. Clifton
Military Aide to the President

Attached is the intelligence item on disarmament which I mentioned to you by telephone today. I had held up dissemination to the Boss until I could check out with Arthur Dean the accuracy of certain parts of it which can be controlled. It checks completely and the source is one in which we have high confidence. I have marked in the margin the sections I consider particularly interesting.
